

RateWare[®]XL

Access Fast, Accurate and Effective Shipment Pricing

RateWare XL 2.0 is built on the foundation of RESTful APIs, allowing for seamless integration to future rating tools. By switching from version 1.0, users can ensure that they experience no performance delays when upgrading to the latest solutions. The HTTPS-only version 2.0 solution also includes:

- API layer versioning capabilities
- Currency support
- Improved speed

HIGH-QUALITY, REAL-TIME LTL DATA

RateWare[®] XL is an extremely fast and comprehensive transportation rating engine, delivering exceptional accuracy and up-to-date data and pricing information for less-than-truckload, density and small package rating. It accesses the SMC³ transportation pricing library of more than 4,000 data modules. RateWare XL users can access:

- CzarLite[®]
- CanadaLite[™]
- MexicoLite[™]
- Density pricing
- ZIP updates
- All other carrier tariffs

HOW FAST IS RATEWARE XL?

On a weekly basis, there are more than 3 million LTL shipments in the United States, and RateWare XL can rate all of those shipments in less than 10 minutes. This means benchmarking and analysis across carriers is no longer a cumbersome, time-consuming task. RateWare XL is able to deliver rapid pricing information — enabling you to do quick analysis and make better transportation decisions.

UTILIZE OUR SECURE, RELIABLE & DEPENDABLE HOSTED TECHNOLOGY PLATFORM

Available as a hosted application, RateWare XL's web services delivery integrates seamlessly with any platform and easily accommodates rapid changes associated with customers, vendors and business strategies. SMC³'s application framework is supported by multiple layers of data and network redundancy across two primary and two secondary data centers.
