

Strategic partners deliver complete solutions with SMC³

About SMC³

SMC³ is the leading transportation data and solutions provider to the freight transportation community. More than 5,000 North American shippers, carriers, logistics service providers and technology partners rely on SMC³'s sophisticated LTL base rates, content and expert bidding, rating and planning tools to make the best business decisions, achieve return on their transportation investment and meet the dynamic demands of the market.

RateWare[®] XL

LTL freight rating is complex. RateWare[®] XL lets shippers and 3PLs manage carrier pricing with ease. RateWare XL is the most comprehensive rating and pricing solution of its kind, enhanced with a library of more than 5,000 data modules. Available as a hosted application, RateWare XL's web services delivery integrates seamlessly and easily accommodates rapid changes associated with customers, vendors and business strategies. Add accessorial management with RateWare[®] Plus. Get all the benefits currently enjoyed with RateWare XL with access to carrier-published accessorial charges, such as high-cost delivery fees, liftgate, residential delivery, cross-border charges, fuel surcharge and more.

CarrierConnect[®] XL

CarrierConnect[®] XL provides the most accurate LTL transit times and LTL carrier details available, compiling and continually updating LTL transit times and LTL carrier service detail from more than 300 leading national, super-regional and regional carriers across North America. With industry-leading speed, reliability and security, CarrierConnect XL seamlessly integrates with TMS applications. With CarrierConnect XL 3.0, customers can access transit-time intelligence through either RESTful APIs or SOAP API messaging.

CzarLite[®]

SMC³'s modern base rate CzarLite[®] is an accurate reflection of current LTL freight flows, providing customers a reliable, streamlined option when pricing out the cost of LTL freight transportation. The base rate can return accurate pricing using both the classification and density rating system. Whether shipping 500 pounds or 8,000 pounds of freight, CzarLite optimizes the rate implementation process and reduces rate negotiation complexity for all involved. The solution is a must-have for shippers seeking to operate efficiently and effectively as the LTL market continues to evolve.

SMC³ LTL APIs

SMC³'s LTL APIs provide automated visibility spanning the shipment lifecycle. With SMC³ LTL execution and visibility APIs, users can digitize their shipment lifecycle, from pricing, dispatch, PRO# assignment, status, documents, and electronic bill of lading (eBOL), which digitally transmits information to carriers quickly and securely.

SMC³ EDI

Managed EDI from SMC³ enables no hassle information communication for automated shipment lifecycle messaging. EDI is available as a single solution or can be combined with APIs to deliver the best fit carrier connectivity solution. SMC³ Integration Services provides an instant EDI infrastructure that supports connections among all TMS providers. Need an EDI connection? Get there without the need for costly, onerous on-premises EDI implementation.
