

A High-Powered Combination: Carrier Logistics, Inc. Transportation Technology and SMC³ LTL Solutions

About SMC³

SMC³ is a hub of expertise in the LTL arena. More than 5,000 North American shippers, carriers, logistics service providers and freight-payment companies rely on SMC³'s sophisticated LTL base rates, content, and expert bidding and planning tools to make the best business decisions, achieve higher returns on their transportation investment, and meet the dynamic demands of the market. Through hosted API solutions, SMC³ supports the entire supply chain with industry-leading speed, reliability and performance.

About Carrier Logistics, Inc. (CLI)

CLI is the leading provider of integrated freight management software solutions that help transportation companies manage change and improve their profitability. Serving the trucking industry for over 50 years, CLI's comprehensive freight management solutions drive every key element in a transportation company from dispatching, to freight bill entry, to mobile data communications. From call logging, to general ledger, to EDI transactions and Internet tracing, CLI's systems encompass every aspect of a trucking company's needs. CLI's FACTS™ suite of software is used by companies worldwide to reap the

benefits of greater efficiency and higher productivity that the system provides.

SMC³ LTL APIs

SMC³'s LTL APIs digitize the full LTL shipment lifecycle with unrivaled visibility solutions, including:

- Access direct-to-carrier pricing APIs for contract pricing
- Self-assign PRO#s prior to shipment for earlier tracking
- Digitally schedule pickups, receiving immediate confirmation
- Monitor shipments via real-time messaging
- View and download digital documents in PDF or PNG formats

SMC³ RateWare® XL

The implementation of RateWare XL enables you to fully realize the advantage of a durable rating engine with a library of more than 3,000 data modules. This robust rating simplifies LTL pricing and eliminates the costly tasks of sourcing, programming and maintaining data

SMC³ Alliance Partner

from multiple carriers.

Use RateWare XL to:

- Manage LTL shipment costing and pricing, including carrier specific discounts, minimum charges, deficit rating and FAK charges, in a streamlined and efficient process.
- Quickly and easily convert and validate data through a simplified process for updating motor carrier tariff information and expiration dates.
- Support rating requirements with various lookup and discounting activities.
- Incorporate CzarLite[®] base rates in your logistics platform.

SMC³ EDI Solutions

SMC³ and Carrier Logistics partner for EDI data transmission to keep information flowing between carriers and customers. Ask your CLI representative about how SMC³'s EDI solutions can optimize your transportation management needs.

CzarLite[®]

SMC³ CzarLite[®] base rates provide a flexible decision support tool to assure total pricing visibility and empowerment to make your best LTL purchases. Achieve optimal shipping agreements with a uniform base rate where you can:

- Simplify business processes like negotiations, contracts, profitability strategies.
- Quickly evaluate the impact of carrier rate adjustments and conduct “apples-to-apples” base rate comparisons.

Cost Intelligence System

The Cost Intelligence System provides comprehensive insight into the profitability of individual shipments and loads. CIS find the answers carriers need to get the results they want – accurate and credible costs that can be rolled up for specific customers, freight terminals or lanes. Solutions geared toward both truckload and LTL providers give carriers the freight costing data needed to analyze freight profitability and traffic flow.
