

Novigo is a Supply Chain Execution Competence Leader, SAP Partner and Implementation Specialist

About Novigo

Novigo works with leading large and mid-sized companies on their SAP-centric Supply Chain Transformation initiatives, enabling them to deliver new value to their customers and minimize their cost of running supply chain operations. Customers engage Novigo's consulting services for their balanced blend of industry leading competence, passion for driving value, deep focus, international delivery capability, hands-on methodology, and innovative thought leadership. For Novigo customers, they identify new ways of running smarter supply chains by uncovering the potential in business process improvement, enabled by SAP SCM/TM Technology, and delivered by empowered and enabled people. As global leaders of SAP Supply Chain Execution (Transportation Management (TM), Event Management (EM), Logistics Business Network (LBN) & Global Track and Trace) implementations, Novigo delivers customer value through integration of SMC³'s RateWare[®] XL rate management content, SMC³ CarrierConnect XL LTL transit time & service details, and SMC³ LTL APIs for SAP TM 9.0 (or higher) and SAP S/4 HANA Transportation Management.

About SMC³

SMC³ is a hub of expertise in the LTL arena. Fueled by heavyweight, analytical APIs, SMC³ delivers its core competency – LTL pricing expertise – through collaborative pricing technology that supports end-to-end, ongoing predictability in shipper/3PL-carrier relationships. More than 5,000 North American shippers, carriers, logistics service providers and freight-payment companies rely on SMC³'s sophisticated LTL base rates, content, and expert bidding and planning tools to make the best business decisions, achieve higher returns on their transportation investment, and meet the dynamic demands of the market. Through hosted API solutions, SMC³ supports the entire supply chain with industry-leading speed, reliability and performance. SMC³: Investing a lifetime to

help optimize freight transportation.

SMC³ RateWare[®] XL

The implementation of RateWare XL enables you to fully realize the advantage of a durable rating engine with a library of more than 3,000 data modules. This robust rating simplifies LTL pricing and eliminates the costly tasks of sourcing, programming and maintaining data from multiple carriers. Use RateWare[®] XL to:

- Manage LTL shipment costing and pricing, including carrier-specific discounts, minimum charges, deficit rating and FAK charges, in a streamlined and efficient process
- Quickly and easily convert and validate data through a simplified process for updating motor carrier tariff information and expiration dates
- Support rating requirements with various lookup and discounting activities
- Incorporate CzarLite[®] base rates in your logistics platform

SMC³ CarrierConnect XL

Getting less-than-truckload (LTL) freight to the right place at the right time requires the most accurate and timely information on the front end. CarrierConnect[®] XL compiles and continually updates transit times and service detail from more than 200 leading national, super-regional and regional carriers across North America, giving you the confidence to make the best choice for LTL shipments. CarrierConnect[®] XL makes it easy for logistics service providers to:

- Identify carrier operational capabilities, including points of

service, transit times and terminal-to-terminal networks

- Compare the full-service portfolios of LTL carriers
- Eliminate transit time and delivery date ambiguity with calendar date or number-of-days modeling, as well as carrier-specific holiday calendars
- Make the most accurate routing decisions using dynamically updated carrier information that reflects real-world operations

SMC³ CzarLite®

No matter where you ship in the United States, Canada or Mexico, SMC³ CzarLite® base rates provide a flexible decision support tool to assure total pricing visibility and empowerment to make your best LTL purchases. Achieve optimal shipping agreements with a uniform base rate where you can:

- Simplify business processes like negotiations, contracts, profitability strategies
- Quickly evaluate the impact of carrier rate adjustments and conduct “apples-to-apples” base rate comparisons

- Assure your shipments are rated using timely, accurate, carrier-independent base rates, so the effects of line items such as discounts and FAK classifications are apparent
- Create your own flexible, borderless international pricing system with stable base rates for freight movements between the U.S., Canada and Mexico

SMC³ LTL APIs

SMC³'s LTL APIs allow users to digitize the entire shipment lifecycle through unrivaled visibility solutions, reducing inefficiencies and optimizing freight transportation shipments. With SMC³ LTL APIs, all shipment information is stored in the same location, using the same digital format, making the freight auditing process simple. SMC³ LTL APIs give users instant visibility into:

- Pricing
- Dispatch
- PRO# Assignment
- Shipment Status
- Documents
